ARCHITECTURE & PLANNING INITIATIVES COMPANY SUMMARY

Architecture & Planning Initiatives was formed in 2010 with the vision of becoming niche leaders in the Hospitality industry. Architecture & Planning Initiatives offers fully integrated project delivery & management services from concept to occupancy.

Talent is in our Team and API thrives in providing a “TEAM” that make every project easily manageable with a perfect fit to our client’s standards.

ADMINISTRATIVE SKILL

MANAGEMENT OF RESOURCES

API senior staff each have over 30 years of experience in innovative design and client service that exceeds standards. With strong concepts derived from the specific needs of our clients, the brand development recognizes an exceptional value in design, simple practicality and functionality. More over with API’s strong base in hospitality, residential & the mixed use development; all projects small and large are treated with care, attention and respect.

SERVICES

Site assessment	Construction Drawings and Specifications
Functional programming	Building Permit Application
Brand Assessment to Client Needs	Tendering
Budget Analysis	Project Management
System Budgeting	Contract Administration
Building Code Consultation	LEED Consulting (Sustainable Design)
Schematic Design	Construction Management
Design Development	

Our “TEAM” provides a multi-talented experienced foundation in the studio and on the construction site. With an established value of diverse & formulated approaches, extensive knowledge & expertise each API associate delivers extensive value to the project and its development process planning.

Having a non-hierarchical staff structure encourages a multiplicity of concepts and ideas to be tested and explore on our various projects. We believe our modest firm size offers our client’s exceptional service & our senior staff are always directly involved with any projects API intakes on our drawing board or in the field.
