PRINCIPAL

LINAS SAPLYS - ARCHITECTURE & PLANNING

As a graduate of University of Toronto, B.Arch., in 1979 he brings over 30 years of construction/development management experience and over half a billion dollars of construction value in various types of projects: Multi-unit residential, commercial retail and industrial buildings working with Canada's top architectural firms from Toronto, Ottawa & Montreal.

Linas founded API in 2010 seeing a direct need in the Hospitality industry for attentive service to this sector of Development. With focus on teamwork, client needs and talented collaborations API produces successful end results to everyone's vision of successful development.

Linas' strengths are: Project Design, Implementation, Administration, Management, Municipal Approval Processes and Planning and Zoning assessments. From the beginning of every project incepted through API, Linas begins to organize his associates in three client categories: Team Assessment, Team Implementation, Team Management Coordination.
